

Grading scheme ECTS

Results of examinations are expressed with grades. In Europe there are different ways of grading schemes. Grading scheme ECTS offers uniform assessment and a possibility to compare marks.

Rezultati izpitov in ocenjevanja so izraženi z ocenami, načini ocenjevanja pa se od države do države v Evropi razlikujejo. Ocenjevalna lestvica ECTS prinaša enotno ocenjevanje in primerjavo rezultatov z dogovorjenim pretvarjanjem ocen iz različnih načinov ocenjevanja.
